

FIG. 1

System Architecture — Five-Platform Sovereign Data Governance Ecosystem

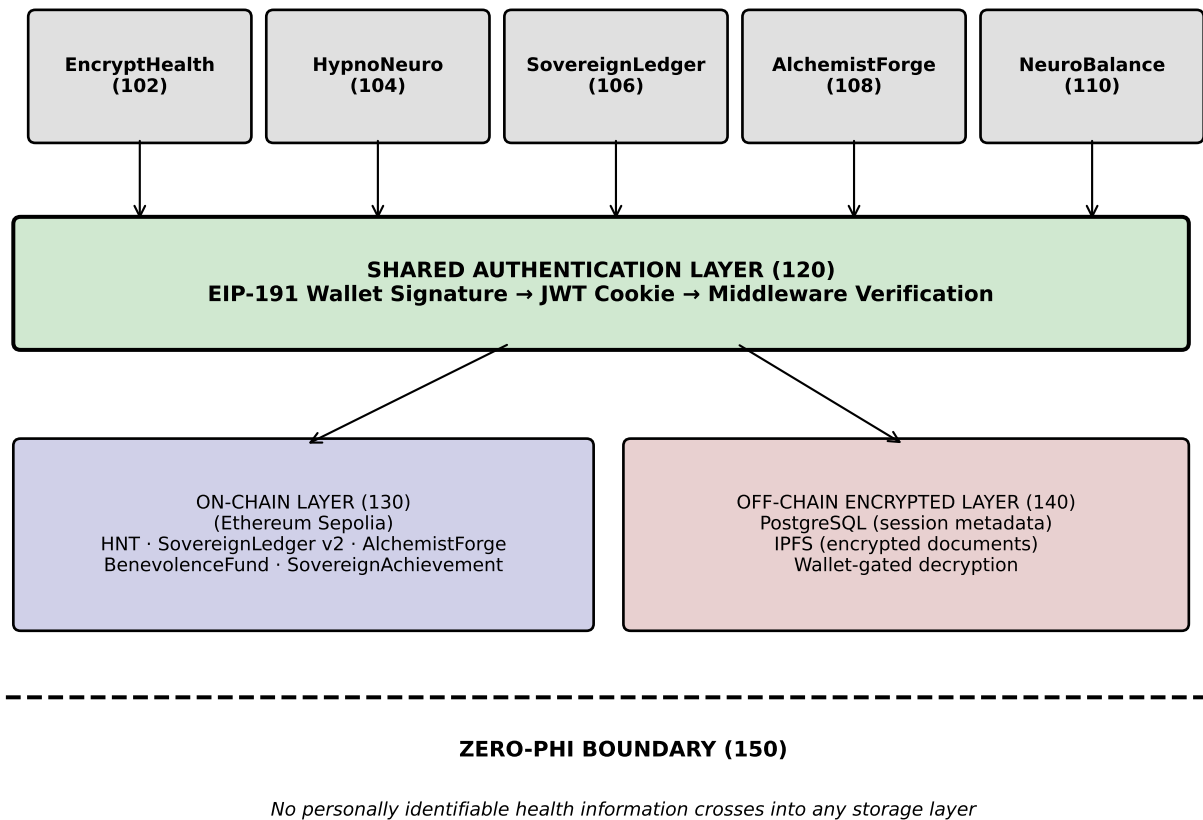

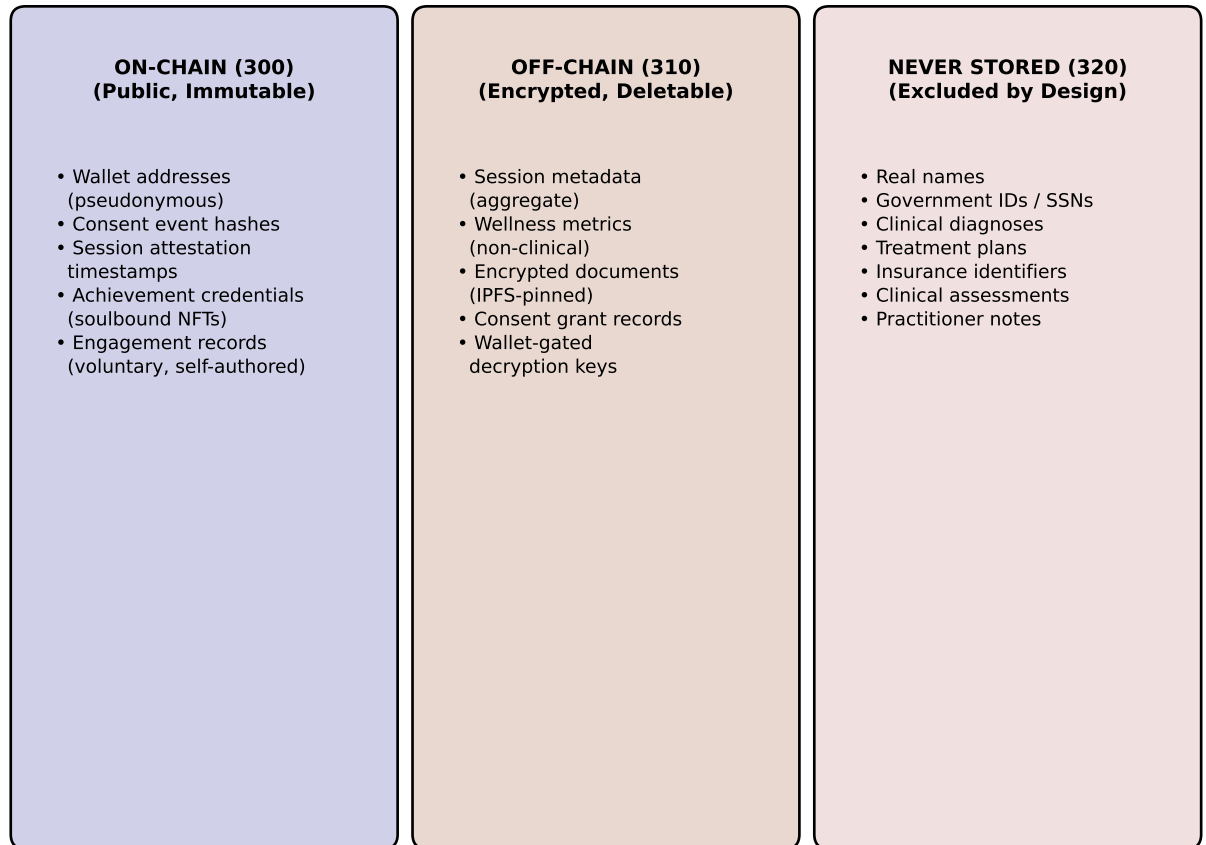

FIG. 2

EIP-191 Consent Attestation Flow

FIG. 3

Zero-PHI Data Flow Architecture

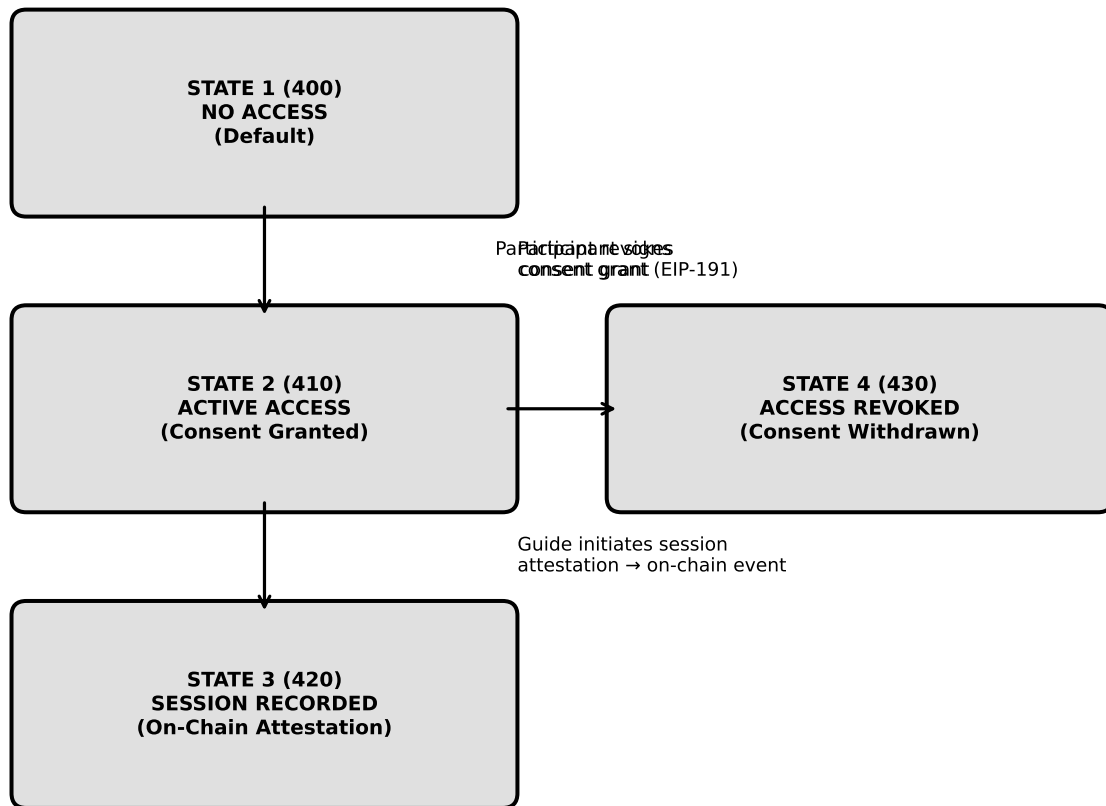

HIPAA SCOPE BOUNDARY (350)

System operates entirely outside HIPAA regulatory scope

Zero PHI held by architectural design — not a covered entity

FIG. 4

Sovereign Guide / Participant Attestation Lifecycle

KEY PROPERTIES:

- Participant controls ALL state transitions (grant, revoke)
- Guide authority limited to session attestation initiation
- Historical on-chain attestations remain immutable after revocation
